USER INTERFACE AND DESIGN 7

NAME:DESHNA N

ROLL NO:240701106

Design an application layout using different colours, text styles, and visual elements. Share the design with users through a Google Form or any other feedback collection method to gather their responses . Based on the feedback received, refine and improve the design accordingly.

INITIAL DESIGN (before feedback):

- Weekly Quiz Completion App
  This app helps users track and complete weekly quizzes efficiently.
  It features a welcoming interface with a calm purple theme and rounded fonts.
  Users can log in easily through a clean, minimal login screen.
  The design promotes engagement and consistent participation.
  Future updates will include a results dashboard with badges and progress tracking.

Suggestions:

- Use more colors to make the design more attractive
- Improve the background appearance
- Increase the font size for better readability
- Add icons to enhance visual appeal
- Improve the color combination

Based on the feedback collected from users, it is clear that certain improvements are required to enhance the overall design quality. Many users felt that the current design looks simple and can be made more attractive by using better color combinations and appealing background. Some users also suggested increasing the font size to improve readability and adding icons to make the interface more interactive. Overall, the feedback indicates that improving visual elements and layout will make the application more user-friendly and engaging.
